

## **5. RICCARTON BUSH – BOUNDARY PROTECTION**

The report of the Senior Planner, Conservation Planning, provided a brief summary of a report entitled, “Riccarton Bush – Boundary Protection Issues and Options”, produced for Riccarton Bush Trust in September 1999.

The Committee **resolved**:

1. That following the identification of notable trees, a variation be initiated to add those trees to the list of notable trees in the Proposed City Plan.
2. That the Riccarton Bush Trust be encouraged to continue to enhance public awareness and appreciation of the bush, particularly with adjoining owners, through environmental education and informal meetings.
