

7. BELFAST ROAD - SCHOOL CROSSING FACILITY

City Streets Unit staff reported, seeking approval for the construction of a pedestrian crossing facility on Belfast Road (a minor arterial road) to the east of Shannon Place, for children attending Belfast Primary School. Measures to alleviate the difficulties being experienced by residents (refer clause 1.1 of this report) were discussed.

The Board **deferred** making a decision on the installation of a pedestrian crossing facility on Belfast Road and recommended as follows:

1. That an on-site visit be arranged at morning peak time and the Papanui members have power to act to make a recommendation to the City Services Committee.
2. That it be recommended to the City Services Committee that signage be provided on Belfast Road regarding the proximity of the school.
3. That the Police be asked to monitor the area at morning peak traffic times and report back to the next meeting.
