

## 2. NEW SUBDIVISION MAIREHAU ROAD

The Traffic Engineer reported on work carried out near the bend in Mairehau Road adjacent to a new subdivision road to be located between Burwood Hospital and the residential area of Parklands. Additionally, in reporting verbally to the Board the Traffic Engineer and Coast Care Co-ordinator advised that the developers had gone beyond the road reserve area and levelled a sand dune within the Travis Wetland. The Board **decided:**

1. To receive the information.
2. That officers consider some form of separation between cyclists and pedestrians/wheelchair users of the pathway.
3. That staff send a letter to the Travis Wetland Trust explaining the damage to the sand dune at Travis Wetland.
4. That the contractor be asked to undertake remedial work to repair the damaged sand dune and plant bracken and other shrubs in consultation with Colin Meurk, Travis Wetland Trust.
5. That the Board request a report on the process undertaken for the removal of the Travis Wetland sand dune.
6. That the Chairperson, David Dobbie and Don Rowlands be given delegated authority to recommend appropriate actions to the City Council pending the abovementioned report.
