

## 16. IDRIS ROAD RESERVE PURCHASE

The Board considered a joint report from the Property Services Officer and Area Parks Officer proposing the purchase of part of an adjoining residential property to add to the existing local purpose reserve. The report also proposed that the land be classified and an easement granted over an existing electricity kiosk.

Any comment from the Board would be submitted to the next meeting of the Parks and Recreation Committee for recommendation to the Council.

The overall proposal was supported by the Board and it was noted that the matter of the former substation building needed some clarification with regard to seeking community views arrangements. A request was also noted for the Board to be appraised of the landscape details for the reserve when available.

The Board **decided** as follows:

That it be recommended to the Parks and Recreation Committee:

1. That Section 1 on drawing number 22350/1 containing approximately 70 square metres subject to survey, being part of the land comprised and described in Certificate of Title 20B/852 be acquired by the Council as a local purpose (community buildings) reserve on the terms and conditions outlined in the public excluded section of this report.
2. That subject to recommendation 1, the Council adopt the required resolution to classify the land accordingly.
