

8. CLIFTON NEIGHBOURHOOD PETITION

The Board considered a report commenting on the petition received earlier in the year from the Clifton Neighbourhood Committee opposing the closing of a portion of Kinsey Terrace and requesting that the Council address the road problems of Tuawera and Kinsey Terraces.

This report was considered in conjunction with a deputation from the Clifton Neighbourhood Committee which was represented by Kathleen Guy, the Co-Chair of the Committee and David Tucker, the convenor, Roding, of the Committee.

The deputation made oral submissions providing a commentary upon the report before the Board primarily seeking officer clarification as to the meaning of the phrase “placed in abeyance” as it referred to the portion of Kinsey Terrace to be closed.

The deputation distributed a written statement in support of its submissions.

After hearing the deputation, the Board **decided** to seek a further report on this matter and answers to the questions raised by the deputation from the Area Engineer for the 6 September 2000 Board meeting.
