

15. DEPUTATIONS BY APPOINTMENT

15.2. ICON

Mr Robert Rozée addressed the Board requesting a grant of \$3,000 to meet the cost of a koha for planners and expert advisers to assist in preparing an Environment Court reference on the City Plan on behalf of nine inner city residents' groups.

Letters of support from these groups for this project were attached.

After discussion on this project and on the specific nature of this Environment Court reference, during the course of which Board members noted that other Board grants had already established a precedent for funding of this nature, the Board **resolved** that, at this stage, the Board would not provide funding support to meet this request.

In adopting this resolution, Board members acknowledged that the Board would reconsider this matter in the event that a more specific proposal or a different proposal was brought before the Board.
