

**7. PROVISION OF A BUS SERVICE FOR THE BROOKHAVEN SUBDIVISION**

The Board considered a report provided by Wayne Holton-Jeffreys, Manager, Passenger Services for Environment Canterbury, which outlined the proposed new bus services which will service the Brookhaven area.

The Board **decided:**

1. To ask the Community Advocate to ascertain from Environment Canterbury why it is unwilling to change the Woolston bus route in order to use the existing service road to service the former bus stop outside the Linrose retirement village.
2. That, when this information has been made available, the Board's concerns at the need for a bus service to this retirement village be conveyed as an agenda item to the City Services Committee.
