

9. DEPUTATIONS BY APPOINTMENT

(a) SMOKEFREE ENVIRONMENT POLICY

Ms Kate Matthews and Ms Kerri Nalder of the smokefree/alcohol team from the Crown Public Health made representations in support of the implementation of a comprehensive smokefree policy within the city, encompassing:

- actively promoting the Council's current policy of smokefree indoor environments within Council-owned properties;
- implementing and enforcing a policy of no smoking in outdoor areas at Council-owned outdoor stadia such as QEII and Denton Park;
- offering support and endorsing the adoption of smokefree indoor and outdoor environments at other public venues such as Jade Stadium. Adoption of smokefree environments at these venues would provide a consistent message to the public;
- implementing and enforcing a further policy of no smoking or designated smoking areas at Council-organised events such as "Christmas in the Park".

The Committee **resolved** that the submission be referred to the Environmental Policy and Planning Manager for report to the appropriate standing committee.
