

4. NEW ZEALAND PLANNING INSTITUTE SEMINAR

A report from the Environmental Policy and Planning Manager detailed the programme for a forthcoming seminar on the roles and responsibilities under the Resource Management Act 1991.

The Committee **decided** to seek a change to the Christchurch seminar date, due to clash with the August Council meeting.

It was noted that should the date be unable to be changed, the New Zealand Planning Institute would be asked to provide a seminar on the same topic for Christchurch City Council Councillors.
