

## 8. SHIRLEY/PALMS YOUTH PROJECT

A report by the Community Development Advisers from the Papanui and Shirley Service Centres sought to establish a structure and process for progressing responses to a perceived community need in the Shirley/Palms area.

The Board **decided:**

1. That the information be received.
2. That a co-ordinating group be established and that Ingrid Stonhill and Anne Carroll be the Board's representatives on that group.
3. That the co-ordinating group draw up an action plan outlining the various responses and that this be reported back to the local community.
4. That the co-ordinating group establish its frame of reference, recognising that each small working group will operate within its own sphere of expertise.
