

3. **WALTHAM ROAD/WILSONS ROAD – TRAFFIC MANAGEMENT
(BROUGHAM STREET TO ST MARTINS ROAD)**

This report, prepared by the Pedestrian Advocate, informed the Board of the project to improve pedestrian and cyclist safety on Waltham and Wilsons Roads, prior to full consultation with the community. The report was also in response to concerns raised by Board members regarding the proposed pedestrian island outside Waltham Pool and reporting the Board's feedback to the City Services Committee to assist with making a decision on this project.

The Board **decided**:

1. That the Board's views on this project be communicated to the City Services Committee's July 2000 meeting to assist the Committee in making a decision to proceed with this project.
2. That the project be endorsed in principle for further consultation.
3. That those children who will be using the Waltham Lido Pool and the recreation facilities in the vicinity, be engaged in the consultation process.
