

12. NEW BRIGHTON BEACH PARK

The Parks Planning Team Leader updated the Board on the progress of landscape planning works required to complete the New Brighton Beach Park. The Board **decided** to recommend to the Parks and Recreation Committee:

1. That the Plan be supported, and less expensive options and the staging of individual projects over a range of costs be considered as part of the current and future budget requirements.
2. That a list of projects with the year of proposed commencement be prepared to enable community groups to adopt particular projects.
