The purpose of this report is to commence the legal procedures to stop portions of legal road; to transfer portions of stopped road to the adjoining owners and to purchase a portion of land for addition to a reserve.

A portion of Barkers Road was stopped a number of years ago with the condition that the physical stopping would not take place until the new expressway between Travis Road and New Brighton Road was open to traffic. This opening should take place in the next couple of months. It is now appropriate to start the legal procedures to stop more portions of Barkers Road. Negotiations between the Property Unit and the adjoining landowners have been concluded subject to a successful stopping procedure.
