

6. CANTERBURY WASTE SERVICES LTD REPORT BACK

Mr Gareth James (General Manager, Canterbury Waste Services Ltd) reported verbally to the meeting and confirmed investigation was continuing to select a suitable site and the opportunity was then taken for members to ask questions.

Mr James also reported on a recent visit to the Redvale landfill site in Auckland together with representatives of Ngai Tahu.

The Subcommittee received a report from the April meeting of TransWaste Canterbury on a revised programme of work leading to the commissioning of the new regional landfill which had resolved “*that the company formally recommend to the Canterbury Joint Standing Committee that an extension to the existing Burwood Landfill consents should be sought as soon as possible for a three year period or until the new regional landfill is available, whichever comes first*”.

The Subcommittee received the information and **decided** that the recommendations of TransWaste Canterbury be referred to the Christchurch City Council.
