

## 7. CATHEDRAL SQUARE

The Committee considered a report from the City Streets Manager on the issues raised during the tour of Cathedral Square on 3 May 2000 by the City Services Committee.

The report outlined proposals for revising the area in front of the Heritage Hotel to minimise vehicle dominance and cater to pedestrian needs. It also dealt with the maintenance and planting issues discussed during the tour.

The Committee **received** the information and **decided**:

1. That the proposed changes in the Heritage Hotel Corner, Item 1, be approved for consultation with the Hotel Managers.
2. That a further report on the planting issues in the Square be considered in August and appropriate funding be sought at the six monthly review of the year 2000/01.
