

16. DEPUTATIONS BY APPOINTMENT

16.1 CHRISTCHURCH YACHT CLUB – EROSION

Mr Michael J Timings, representing the Christchurch Yacht Club and Mrs Glenda Prokopavicius, the Commodore of the Christchurch Yacht Club, addressed the Board outlining their very serious concerns at the rapidly escalating erosion of the land in the vicinity of the Yacht Club building at Moncks Bay.

The deputation stated that the Christchurch Yacht Club believes that it is now only a matter of time before the ebbtide flow begins to scour the ground from under the Club building. The Club is concerned that if this matter is left too long it will be too late to take any remedial action.

The Board **resolved:**

1. To make the recommendations which follow to the Council through the Parks and Recreation Committee:
 - (a) That the Council determine the measures necessary to preserve the land on which the Christchurch Yacht Club stands and the urgency with which these measures need to be undertaken.
 - (b) That the Council negotiate with the Christchurch Yacht Club Inc the appropriate funding for the necessary work.
2. That a late Council Plan submission be made seeking funding and urging Council action on this matter, while indicating the urgency of this need.
