

12. SKATEBOARD FACILITIES UPDATE

The Parks Manager submitted a report updating the Committee on skateboard facility development at Washington Reserve and at other reserves in the city.

The report advised that the Police had approached the Parks Unit offering to install a security camera in Washington Reserve. The Police believe that a camera would enhance the safety of the reserve and outlying area and minimise anti-social activities in the area. Staff are assessing the feasibility of the proposal.

The Committee **decided:**

1. That staff continue to work with the Police to place a security camera in Washington Reserve.
2. That the information be received.
