

9. SUMMER RECREATION PROGRAMME 1999/2000

The Leisure Manager submitted a report detailing the participation in Council recreation programmes/events delivered by the Leisure Unit over the summer period (November 1999–April 2000).

The report noted that there had been a marked increase in the number of events/programmes organised in conjunction with community groups and that sponsorship (by way of goods in kind) had increased substantially from the previous summer. This year there was a 40% increase in participation, up from 20,520 to 30,377 attendances.

In receiving the report the Committee **decided** to record its congratulations to the Recreation and Arts Team on the success of the 1999/2000 Summer Recreation Programme.
