

1. DEPUTATIONS BY APPOINTMENT

(c) St Albans - Golden Suburbs Theme

Peggy Kelly and Douceline Wardle sought support for the idea of St Albans being developed as the 'Golden Suburb'. The idea had originated from articles in the November 1997 and the May 2000 editions of STANN. The Council was asked to give the concept consideration when undertaking new landscaping projects in the area, planting kowhai trees and the many other species with golden coloured foliage or flowers.

The aim was that each property in the community would eventually display a small plaque heralding the 'Golden Suburb'.

In complimenting the residents on their enthusiasm, the Board **decided** to endorse the concept of St Albans the Golden Suburb and to advise the Parks Unit accordingly.
