

7. **PROJECT FUNDS CARRY FORWARD – ART IN THE LOCAL AREA**

This report provided the Board with a progress report for the Art in the Local Area Project.

A request has been made by the Board to carry forward the \$3000 allocated for art in public places on the grounds that it will not be possible to commission any work before the end of the financial year.

The Spreydon-Heathcote sub-committee for Art in the Local Area, was in agreement that the \$3000 be spent in the Addington area.

Subject to approval of the carry forward request a working party comprising representatives of the Addington Business Association, the Addington Neighbourhood Association and Manuka Cottage will be established and the project progressed during the next financial year.

The information was **received**.
