

## 8. PROPOSED CELLPHONE FACILITY IN BOTTLE LAKE FOREST

The Parks Planner and Consents Team Leader reported on the proposed establishment of a base transceiver station in Bottle Lake Plantation. The Board **decided** to recommend to the Parks and Recreation Committee that officers report to the 1 May 2000 meeting on the outcome of consultation on leasing the proposed site to Vodafone prior to a decision being made by the Board.

(Note: David Close requested that his vote against the adoption of the Board's recommendation be recorded.)
