

2. MAIDSTONE ROAD/WAIMAIRI ROAD INTERSECTION IMPROVEMENTS

The Traffic Engineer (Brian Neill), submitted a report setting out the proposed traffic management measures required to implement the traffic plan for the intersection and also the section of Waimairi Road north to Tudor Avenue. It was noted that the matter was also to be considered by the Riccarton/Wigram Community Board and the City Services Committee.

The Board **decided** to support the outlined traffic management changes which would now be considered by the City Services Committee for resolution by the Council.

Clause 14 of this report records the Board's delegated decision regarding the installation of Give Way controls at nearby Tudor Avenue and St Clio Street.
