

18. SUPPLEMENTARY REPORT

The Chairman referred to a supplementary tabled report on the matter of the Board's Project Funding Allocations for 2000/01 and explained that the report was not included in the Agenda for the reason that the information was not available at the time the Agenda was prepared and circulated. It was necessary that the report be dealt with at the present meeting rather than being deferred to a subsequent meeting.

The Board **resolved** that the report be received and considered at the present meeting.
