

9. DRAYTON RESERVE DRAFT PLAN

The Board considered a report detailing the outcome of public consultation over the Drayton Reserve Draft Plan.

The report contained a summary of the submissions made on this matter with comments and recommendations and advised that most of the suggestions made on the submission forms distributed as part of the public consultation process could be incorporated into the Plan.

The Board received the information and **agreed** that the Draft Plan be amended in line with the recommendations contained in the report and that a final plan be produced and distributed.
