

11. GUIDELINES FOR THE IMPLEMENTATION OF THE STREET BANNER PROGRAMME

The Board considered a report setting out guidelines for the Street Banner Programme as part of the process requested by the Council for the development of a strategy and code of practice for the management and maintenance of a street banner programme for Christchurch. This report was referred to Community Boards for comment. These comments were to be referred to the Environment and Strategy and Resources Committees which would make policy recommendations to the Council.

The Board **agreed** to comment on the draft policy for the design and location of banners in the City after the preparation of this policy and requested that this draft policy come back to the Board for further consideration when it has been prepared.
