

## 11. 'ROAD SAFETY AT THE SCHOOL GATE' TIM ASHTON'S REPORT

The Schools' Advocate for the City Streets Unit reported on progress of projects suggested in a 1997 report by Tim Ashton. Projects within the Shirley/Papanui area included the provision of a pedestrian island on Belfast Road (refer clause 10 of this report), a pedestrian island on Cranford Street at Fraser Street for the Papanui School, and kerb extensions on Mahars Road for the Mairehau Primary School. Major realignment work on Prestons Road at the Marshland School has been recommended for the 2000/01 financial year. Other projects would be addressed when funding became available.

The Board **received** the information and asked the Traffic Engineer to prepare a report on the problems experienced at the Amos Place/Marshland Road intersection.
