

## 5. LINCOLN ROAD FOUR LANING

The Board considered a report outlining the background and scheme plan for this project, and Mr Brian Neill, Traffic Engineer, was present to speak to the report.

Speaking rights were granted to Mr Scott, representing the Addington Area Association, who advised the Board of his (and others) concerns.

The Board **decided**:

1. To recommend that the amended plans for four laning in Lincoln Road be distributed to the community again for information.
2. To express its concern that the residents of three properties on Lincoln Road were not adequately consulted about loss of parking outside their homes.
3. To recommend the City Services Committee consider bringing forward the Clarence and/or Spencer Street angle parking projects so that they occur before any loss of car parks.
