

15. SPEED CHECK TRAILERS

The report updated the Committee on progress on the purchase of a “Speed Check Trailer” and the method by which it was intended to fund it. The report had also been referred to all Community Boards for their information and confirmation of funding.

Mr Cook advised that since the report had been written all six Community Boards had confirmed their intention to support the hire and use of the speed check trailer in their areas at assessed cost of \$700 per annum.

The Committee **received** the information and confirmed:

1. That a speed check trailer be purchased.
2. That it be hired to Community Boards for their use and they be advised that their input per annum would be \$700 to cover hire charges.
