

7. SATURN CABLING UPDATE

A report from the Environmental Policy and Planning Manager detailed the discussions that had taken place and the work yet to be completed in respect of the roll-out of the Saturn network in Christchurch.

The Committee **resolved** to recommend to the Saturn Subcommittee its agreement to the principle of prioritising sensitive areas as follows:

1. Lifeline routes
2. Tourist routes and water/coastal frontages
3. Major and minor arterials
4. Local streets in NIPs and SAMs
5. Major park frontages
