

14. WATERWAYS AND WETLANDS BUS TOUR

A report was submitted setting out details of a Water Services Unit proposal to undertake bus tours for the general public of the Avon, Heathcote and Styx Rivers as part of the Waterways and Wetlands Education Strategy.

The Board **decided** as follows.

1. That the Board work in partnership with the Water Services Unit in providing bus tours of the City's major rivers for community groups within the Board's area.
2. That the provision of a "budget cost" option for tour attendees be investigated and reported on.
