

3. WESTERN BUS SERVICE REVIEW

The Board was provided with an early opportunity to raise with Environment Canterbury any community issues regarding the existing services prior to the expiry of contracts next year. The services affected in the Board's area were Hornby/Russley (8), Avonhead/Merrin (21), University (22) and Hyde Park (25).

The Board **decided** to support the continuation of existing services subject to there being no adverse comment received from the community, but that if so received, the Board desires to be further involved.
