

5. YALDHURST ROAD KERBS AND CHANNELS - FOVANT STREET TO RACECOURSE ROAD

The Traffic Engineer provided an update report on the proposal to provide kerbs and channels along the north east side of Yaldhurst Road between Fovant Street and Racecourse Road.

Results of the consultation undertaken and consequential changes made to the scheme plan were elaborated on along with the intended construction programme.

The report also detailed the investigation undertaken as to the possible installation of traffic signals at both the Racecourse and Withells Roads intersections.

The Board **decided** as follows:

That the information be received.

1. That the following comments/observations be considered by the City Services Committee:
 - (a) two lanes (rather than one) being provided to the west of Racecourse Road.
 - (b) the non provision of traffic signals at the Racecourse/Yaldhurst intersection be reconsidered.
 - (c) that careful attention be given to the design and layout of the intersecting roads acknowledging the lessons learnt from the Belfast (accident) experience.
 - (d) that consideration be given to placing cycle facilities on the inside (rather than the traditional outside) of the parking lane.
