

## 19. NEIGHBOURHOOD WEEK 2000

The purpose of this report was to seek support for Neighbourhood Week 2000 and invite Community Boards to carry out some advance planning as to their contribution to the event.

All Community Boards were invited to participate and a variety of events were held throughout the city at the first Neighbourhood Week held in March 1998.

Late in 1999 it was agreed by most Community Boards that October would be a better time of year to hold the event as the March event clashed with other metropolitan events. The new Committee with representatives from all Boards has met and a decision has been made to hold Neighbourhood Week from Saturday 28 October to Friday 3 November.

The Board **resolved** that \$2,500 be set aside for this purpose, from the Board's 2000/01 Discretionary Fund.
