

14. ENTRANCE BARRIERS TO GENERAL PARKS AND ACCESSWAYS

This report, submitted by the Cycle Planner, sought the view of the Board towards the opening up of general park and accessway entrances to improve access for cyclists, wheelchair and pushchair users within the Shirley/Papanui wards. The need to address entranceway and parking issues at Spencer Park was noted. Any further comments and information identifying sites is to be referred to the Cycle Planner. The Board **received** the information.
