

17. HEAPHY PLACE - ORNAMENTAL STREAM

The Board considered a report from the Water Services Unit which advised the Board of the meeting where residents of Heaphy Place had expressed concern about aspects of the ornamental stream which ran through their properties.

It was **decided**:

1. That the renewal of the existing pipe with a larger pipe that is less likely to cause blockages be approved.
2. That the Area Parks Officer be requested to report on developing the area around the pond and bridge over the Heaphy Place ornamental stream as a reserve.
