

11. SPEED CHECK TRAILERS

The Board considered a report updating it on progress on the purchase of a speed check trailer and the method by which it is intended to fund same.

It was noted that the Chairman of the City Services Committee had recommended that the speed check trailer be purchased outright by Plant and Building Services, and that each Board allocate a one sixth share of the annual rental, calculated to be \$4,200.

The Board **resolved** to allocate \$700 from its 2000/01 Discretionary Fund for the use of the speed check trailer.
