

10. TAKAHE TOILETS - UPGRADE

The Board considered a report requesting its support for a submission to the Annual Plan for the upgrading of the Sign of the Takahe toilets.

The Board **resolved**:

1. To make a submission to the Annual Plan process for funding for the replacement of the Takahe toilets and that this request be seen as a “Priority One” submission.
2. That the reconstruction of the toilets be seen as a metropolitan issue, because of the implications on the volume of tourists to the City using the facility.
3. That the need for a very high standard and design in keeping with the precinct be recognised.
4. To delegate authority to the Community Affairs Committee to prepare a submission on behalf of the Board on the Draft 2000/2001 Annual Plan, on this issue and others.
