12.2 Remission of Rates – Canterbury Bowling Club, 109 Salisbury Street

This report was referred back to the Rates Manager for a review of the application, in light of the club's latest annual report. Staff were also requested to report back on the provisions of the club's constitution relating to the disposal of assets and the initiatives being taken by the Leisure Unit to encourage the amalgamation of sports clubs.

In noting the information that Canterbury Tennis enjoyed a 100% remission of rates, the Committee requested the Financial Services Manager to report back to a future meeting on whether this level of remission was still justified.
