

## 12. CENTRAL CITY REVITALISATION PROJECT

At the Board's Seminar Meeting held on 21 September 2000, representatives of the Central City Revitalisation Project Team were in attendance to provide a presentation on Central City Revitalisation projects.

The project team was seeking comments or submissions on the discussion document which had been produced to outline the Central City Revitalisation Project.

The Board decided that it wished to make submissions and **decided** to set up a working party of any interested members of the Board, to be chaired by Bob Todd, to meet on Friday 24 November at the Linwood Service Centre at 3.00pm.
