

7. RICHMOND HILL ROAD

The Board considered a report seeking its support for a joint project between the City Streets and Water Services Units for Richmond Hill Road and Nayland Street. The project involves a new process and time line to co-ordinate the wide range of issues associated with the area.

The Board **decided:**

1. That the present proposals by the City Streets and Water Services Units be withdrawn.
2. That the Board support the process and timeline as outlined in the report.
3. That the Board become an integral part of the community process of involvement in the joint project.
4. That an interim report on the progress of the community involvement be submitted to the Board in February.
