

16. TERMS OF REFERENCE - COMPOST SUBCOMMITTEE

The Committee considered a report seeking approval to the extension of the terms of reference of the Compost Subcommittee to include matters relating to green waste and refuse disposal fees.

It was intended that a report be submitted to the November meeting of the Committee on the relationship between green waste refuse charges to refuse charges and it was considered desirable that the Compost Subcommittee in the first instance discuss this matter.

The Committee **resolved** that the terms of reference of the Compost Subcommittee be extended to include consideration of fees for green waste and refuse disposal.
