

3. REPORT FROM THE RESOURCE MANAGEMENT SERVICE

Officer responsible Environmental Services Manager	Author Jane Donaldson, Environmental Services Manager, DDI 371-1651
Corporate Plan Output: Public Advice	

The purpose of this report is to present the annual report from the Resource Management Service of the Christchurch Community Law Centre.

The Resource Management Service receives a grant of \$33,000 each year from the Council for the purpose of providing independent advice and education on resource management issues.

The attached report describes the advisory and education programmes which have been carried out and accounts for expenditure of the Council grant.

- Recommendation:**
1. That the information be received.
 2. That the Resource Management Service be requested to provide a clear set of objectives and performance indicators for the 2001/02 year, with the longer-term view of assisting the Council to meet its commitment to the principle of community governance.
 3. That the objectives include a breakdown of customer figures (both spatially and issue-based) so that specific areas of education can be proactively targeted by the Council and the Resource Management Service.
