

6. AVON-HEATHCOTE ESTUARY : ISSUES REPORT

The Board considered a report outlining the recent completion of an “Issues” Discussion Document for the Avon-Heathcote Estuary and adjacent land and the place of this document in the production of a non-statutory management plan for the Estuary. The report sought the Board’s comments on the discussion document and on the public consultation process.

The Board **decided:**

1. To hold a seminar in the New Year on the issues covered by the proposed report for members of the Board.
2. That the Board make no submission on these issues until after this seminar has been held with Board members early in 2001.
