

1. FERRY ROAD – BUS STOP

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, Area Engineer
Corporate Plan Output: On Street Management	

The purpose of this report is to recommend to the Council that the bus stop in Ferry Road at Charlesworth Street be repositioned.

As part of the extension to the Woolston Bus route through the Brookhaven subdivision, it has become necessary to rationalise the bus stops in Ferry Road at Charlesworth Street.

At present the stop is to the east of the intersection and serves the Sumner bus route. The Woolston route will not be able to use this bus stop and rather than place a bus stop each side of the intersection or one in Charlesworth Street very close to the intersection, it is best to place one stop in Ferry Road to serve both bus routes.

This means it is necessary to replace the bus stop east (Sumner side) of the intersection with a new stop west (City side) of the intersection. This position is across the frontage of the property on the corner of Charlesworth Street and Ferry Road. The owners have been informed.

- Recommendation:**
1. That the bus stop on the north side of Ferry Road commencing at a point 5 metres from its intersection with Charlesworth Street and extending in an easterly direction for a distance of 17 metres be removed.
 2. That a bus stop be installed on the north side of Ferry Road commencing at a point 9 metres from its intersection with Charlesworth Street and extending in a westerly direction for a distance of 14 metres.
