

## 21. BEXLEY WETLAND RESTORATION

The Parks Manager reported to the October meeting of the Parks and Recreation Committee seeking approval to reallocate funding for treating the contaminated site within the Bexley Wetland.

The Parks and Recreation Committee referred the report to this Committee with the recommendation that \$85,000 be transferred from the Estuary Green Edge budget to the Bexley Wetland budget to implement the preferred option for the remedial work.

The Committee **resolved** that the recommendation of the Parks and Recreation Committee be adopted.
