

18. BURWOOD COMBINED CHURCHES COMMUNITY OUTREACH RESEARCH

This report, submitted by the Community Development Adviser, sought the Community Board's funding support for a proposed six-month community outreach research project in Burwood. The Family and Community Division of Anglican Care and the Social Work Department of the University of Canterbury will jointly undertake the research work.

The Board **decided** that in view of the financial commitments already undertaken, the Board decline to fund the proposal, and indicate its willingness to co-operate with the churches on one specific community development programme in the future.
