

2. DEPUTATIONS BY APPOINTMENT

2.2 CITY CENTRE REVITALISATION

A deputation from Dr Mark Bachels (Project Manager) and Dave Robinson (Transportation Planning Engineer) outlined the work of the Central City Mayoral Forum to date, and the central city revitalisation vision for the next 25 years. The Board considered it appropriate for one public meeting for each ward to be held to seek residents' views and engage members of the public; these arrangements to be made in conjunction with the Chairperson and Community Advocate to ensure appropriate coverage and timing.

Matters to be addressed will include access; green streets - linkages; user friendly bureaucratic processes; commercial/mixed use possibilities; safety; and highlighting existing assets. Public consultation so far has been through the City Scene, and a discussion document will be circulated at the end of September for feedback, and the outcomes published in the City Scene.
