**1. EASTERN ORBITER - BUS STOP CHANGES AND  
BUS STOP CHANGES - THE NEW BUS EXCHANGE**

Corporate Plan Output: On street management	

The purpose of this report is to inform the Council of the recommendations of the Bus Stops and Shelters Subcommittee in respect to alterations to bus stops in connection with the above.

At its meeting on 12 September 2000 the City Services Committee considered two reports in respect to the above (copies are attached) seeking approval to bus stop changes resulting from the extension of the Orbiter bus service and establishment of the new bus exchange.

The Committee referred both these reports to the Bus Stops and Shelters Subcommittee to consider:

1. (a) *Whether the Committee should support, or alternatively seek changes, to the route.*  
(b) *The bus stops which may be required.*
2. *That the Subcommittee report direct to the September meeting of the Council.*

The Subcommittee met on Wednesday 27 and Thursday 28 September 2000 and it is recommended that the alterations to bus stops and establishment of new stops as detailed in the attached reports be approved by the Council.

It has been decided that the location of the bus stops and pedestrian crossings in the vicinity of The Palms, Papanui and Eastgate Shopping Centres should be re-examined at a later meeting, together with the priority for bus shelters on this route. The establishment of bus stops and slip lanes in the QEII Drive section of the route will be considered as part of the forthcoming budget round.

It is intended that the Subcommittee will also inspect proposed bus stop sites in the Centaurus Road area during its meeting later in October. (Note: These stops are not detailed in the attached reports.)

**Recommendation:** That the bus stop alterations and establishment of new bus stops contained in the two reports attached be approved by the Council.
