

## **12. DEPUTATIONS BY APPOINTMENT**

### **(a) ENVIRONMENT CANTERBURY - MS JILL ATKINSON**

Ms Jill Atkinson and Mr Wayne Holton-Jefferies from Environment Canterbury briefed the Committee on the western bus stops proposed from April 2001 for the New Brighton to Hornby route and outlined the process of consultation involved with this.

The opportunity was taken for members of the Committee to ask questions and the Chairman expressed his concern at the fact that while consultation was undertaken with Community Boards no consultation was undertaken direct with the City Services Committee. It was agreed that an invitation be extended to representatives of Environment Canterbury to attend the meeting of the Bus Stops and Shelters Subcommittee when details of the bus stops were to be considered.
