

## 18. REPORT OF THE EVANS PASS ROAD SUBCOMMITTEE

The Committee received the report of the above Subcommittee.

The report provided details of the crash reduction study undertaken by Montgomery Watson Ltd (copy tabled) which was considered by the Subcommittee on Friday 25 August in association with a site visit.

The report provided details of the measures considered appropriate in the immediate, short and long term for the improvement of safety on this route together with cost estimates and noted that the immediate work detailed in the report estimated at \$19,400 had been substantially completed.

The Committee **decided**:

1. That the route delineation measures as detailed in the report be implemented immediately.
2. That crash barriers and a crash cushion be further investigated.
3. That realignment of the bend and widening of the road be investigated.
